Work Experience

Software Mansion Kraków, Poland
Software Engineer Jul 2026 – Present

- Develop Detour, Software Mansion's new mobile deep linking product, used by 100+ app developers
- Built a new A/B and multivariate testing feature from scratch (TypeScript, Bun, Next.js)

ETH Zurich, Scalable Parallel Computing Laboratory Remote
Research Assistant Nov 2025 – Jul 2026

- Benchmarked embedding models on 5 datasets for CheckEmbed, a paper on verifying LLM outputs
- Created the paper's model comparison charts from the results
- Automated the experiments with Python scripts on Athena, AGH Cyfronet's HPC cluster

CERN, CMS Experiment, Precision Proton Spectrometer (PPS) Geneva, Switzerland
Software Engineer, Summer Student Programme Jul 2025 – Sep 2025

- Rebuilt the PPS detector's calibration app in Next.js and JSROOT, cutting load times from ~60 s to ~5 s
- Built Python pipelines serving detector data from EOS, CERN's distributed storage
- Automated manual calibration steps for an international team of physicists, who still use the app

AVSystem Kraków, Poland
Software Engineer Jul 2024 – Sep 2024

- Added RFC-based IPv4/IPv6 tests to a telecom DHCP server to prevent memory leaks (Scala)
- Developed features for the server's Angular web management console
- Reworked the server's HOCON configuration to improve stability and scalability

Projects

Poznaj Góry | poznajgory.pl Jan 2023 – Jun 2026
Lead Developer, student startup

- Led a team of 6 students building a mountain trip planner, from attractions to accommodation booking
- Built it with Kotlin and React, using Stripe for booking payments
- Grew organically to ~3,000 monthly users and 300+ attractions

Education

AGH University of Krakow Kraków, Poland
Bachelor of Engineering in Computer Science, GPA 4.2/5.0 Oct 2023 – Jan 2027
Relevant coursework: Data Structures and Algorithms, Distributed Systems

Skills

Programming: Python, C++, Go, TypeScript, Kotlin, Scala, C#
Frameworks & Databases: React, Next.js, Node.js, Bun, Angular, PostgreSQL, MongoDB
Infrastructure: Linux, Docker, Docker Swarm, OpenShift (OKD), AWS, Git, CI/CD (GitHub, GitLab)
Languages: English (C2, Cambridge CAE grade A), French (B1), Polish (native)

Awards & Certifications

Laureate, AGH Olympiad in Mathematics (Diamond Index: guaranteed admission to AGH) Apr 2022
Google UX Design Certificate Jan 2022
